

POLICE WARNING

The Police have advised the FTN of a spate of thefts from motor vehicles parked adjacent to Haddon Wood during the past few weeks. Their advice for anyone leaving their vehicle unattended is to:

- a) Make sure you scan your vehicle for any valuables and, if you are unable to take them with you, to place them in the boot.
- b) Always leave the glove compartment empty and open
- c) Ensure your car is locked and all windows shut

On the subject crime prevention, the recent prolonged hot spell of weather has meant that households have increasingly left windows and doors open in their properties to encourage a through draft. Unfortunately this also attracts the opportunist criminal. Households should be mindful to ensure that front doors, windows and garage doors are locked when in the back garden and out houses, sheds and garages are locked and secured overnight and when away from the property.
